

Publikácie oddelenia za rok 2017

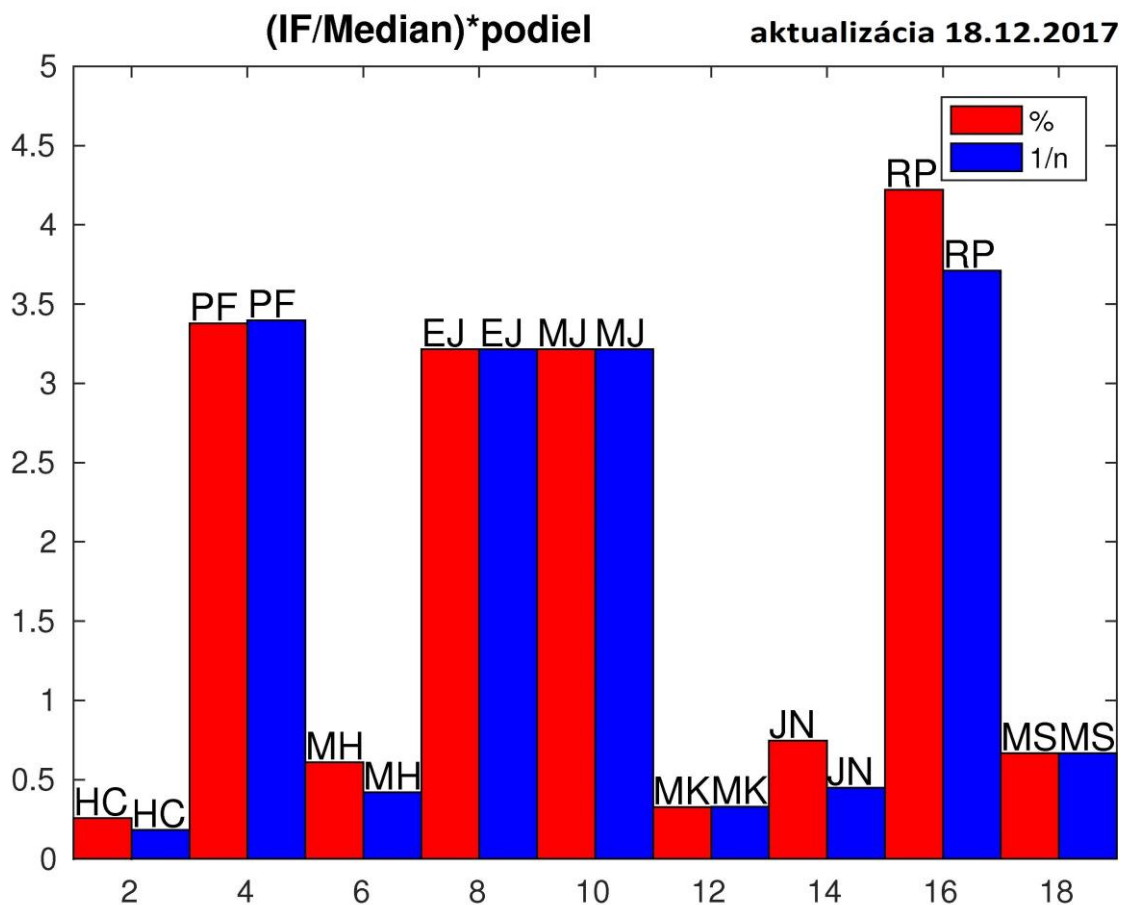

1. **H. ČENČARIKOVÁ** (70%) and J. STREČKA, Rise and Fall of Reentrant Phase Transitions in a Coupled Spin-Electron Model on a Doubly Decorated Honeycomb Lattice, [Acta Physica Polonica A 131 \(2017\) 1021](#) [IF/MedIF(2016)= 0.469/1.28=0.366] (3 pages).
2. **P. FARKAŠOVSKÝ** (100%), Formation and condensation of excitonic bound states in the generalized Falicov-Kimball model, [Physical Review B 95 \(2017\) 041406](#) [IF/MedIF(2016)=3.836/2.059=1.863] (6 pages).
3. **P. FARKAŠOVSKÝ** (100%), Combined effects of local and nonlocal hybridization on formation and condensation of excitons in the extended Falicov-Kimball model, [Solid State Communications 255 \(2017\) 24](#) [IF/MedIF(2016)=1.554/2.059=0.755] (5 pages).
4. **P. FARKAŠOVSKÝ** (100%), Influence of Spin Ordering on Superconducting Correlations in the Spin-One-Half Falicov-Kimball Model with Hund and Hubbard Coupling, [Journal of Superconductivity and Novel Magnetism 30 \(2017\) 581](#) [IF/MedIF(2016)=1.18/2.059=0.573] (6 pages).
5. M. ORENDÁČ, S. GABÁNI, G. PRISTÁŠ, E. GAŽO, P. DIKO, **P. FARKAŠOVSKÝ** (10%), A. LEVCHENKO, N. SHITSEVALOVA, K. FLACHBART, Isosbestic points in doped SmB₆ as features of universality and property tuning, [Physical Review B 96 \(2017\) 115101](#) [IF/MedIF(2016)=3.836/2.059=1.863] (11 pages).
6. N. V. ANTONOV, **M. HNATICH** (35%), A. S. KAPUSTIN, T. LUČIVJANSKÝ, and L. MIŽIŠIN, Directed-bond percolation subjected to synthetic compressible velocity fluctuations: Renormalization group approach, [Theoretical and Mathematical Physics 190 \(2017\) 323](#) [IF/MedIF(2016)=0.984/1.28=0.769] (12 pages).
7. **M. HNATICH** (30%), V. M. KHMARA, V. YU. LAZUR, and O. K. REITY, The WKB method for the quantum mechanical two-Coulomb-center problem, [Theoretical and Mathematical Physics 190 \(2017\) 345](#) [IF/MedIF(2016)=0.984/1.28=0.769] (14 pages).
8. **M. DANČO**, **M. HNATICH** (30%), M. V. KOMAROVA, T. LUČIVJANSKÝ, and M. YU. NALIMOV, Renormalization Group Calculation of Dynamic Exponent in the Models E and F, [Acta Physica Polonica A 131 \(2017\) 651](#) [IF/MedIF(2016)= 0.469/1.28=0.366] (3 pages).

with Hydrodynamic Fluctuations

9. **E. JURČIŠINOVÁ** (50%) and **M. JURČIŠIN** (50%), Adiabatic cooling processes in frustrated magnetic systems with pyrochlore structure, [Physical Review E 96 \(2017\) 052128](#) [IF/MedIF(2016) =2.366/1.349=1.754] (10 pages).
10. **E. JURČIŠINOVÁ** (50%) and **M. JURČIŠIN** (50%), Evidence for equivalence of diffusion processes of passive scalar and magnetic fields in anisotropic Navier-Stokes turbulence, [Physical Review E 95 \(2017\) 053112](#) [IF/MedIF(2016) =2.366/1.349=1.754] (6 pages).
11. **E. JURČIŠINOVÁ** (33.33%), **M. JURČIŠIN** (33.33%), and **M. MENKYNA** (33.33%), Simultaneous influence of helicity and compressibility on anomalous scaling of the magnetic field in the Kazantsev-Kraichnan model, [Physical Review E 95 \(2017\) 053210](#) [IF/MedIF(2016) =2.366/1.349=1.754] (28 pages).

12. **E. JURČIŠINOVÁ** (50%) and **M. JURČIŠIN** (50%), Evidence for ferromagnetic frustration in a classical spin-1/2 system with multisite interaction in external magnetic field: Exact results, [Physica A 486 \(2017\) 296](#) [IF/MedIF(2016)=2.243/1.28=1.752] (22 pages).
13. M. ČLOVEČKO, M. GRAJCAR, **M. KUPKA** (14%), P. NEILINGER, M. REHÁK, P. SKYBA, and F. VAVREK, High Q-value Quartz Tuning Fork in Vacuum as a Potential Thermometer in Millikelvin Temperature Range, [Journal of Low Temperature Physics 187 \(2017\) 573](#) [IF/MedIF(2016)=1.3/1.696=0.767] (7 pages).
14. M. KUPKOVÁ, **M. KUPKA** (33%), and M. HRUBOVČÁKOVÁ, Comparison of Elastic and Corrosion Behaviour of Sintered Iron Before and After Its Long Time Immersion in Hank's Solution, [International Journal of Electrochemical Science 12 \(2017\) 3120](#) [IF/MedIF(2016)=1.469/2.235=0.657] (13 pages).
15. V. P. GONCALVES, B. KOPELIOVICH, **J. NEMCHIK** (33.33%), R. PASECHNIK, and I. POTASHNIKOVA, Heavy flavor production in high-energy pp collisions: color dipole description, [Physical Review D 96 \(2017\) 014010](#) [IF/MedIF(2016)=4.568/2.039=2.24] (16 pages).
16. A. SEPEHRI and **R. PINČÁK** (50%), The birth of the universe in a new G-theory approach, [Modern Physics Letters A 32, No. 5 \(2017\) 1750033](#) [IF/MedIF(2016)= 1.165/1.349=0.864] (32 pages).
17. E. BARTOŠ and **R. PINČÁK** (50%), Identification of market trends with string and D2-brane maps, [Physica A 479 \(2017\) 57](#) [IF/MedIF(2016) =2.243/1.28=1.752] (14 pages).
18. A. SEPEHRI, **R. PINČÁK** (30%), K. BAMBA, S. CAPOZZIELLO, and E. N. SARIDAKIS, Current density and conductivity through modified gravity in the graphene with defects, [International Journal of Modern Physics D 26 \(2017\) 1750094](#) [IF/MedIF(2016)= 2.476/2.01=1.232] (25 pages).
19. **R. PINČÁK** (50%), V. V. SHUNAEV, J. SMOTLACHA, M. M. SLEPCHENKOV, and O. E. GLUKHOVA, Electronic Properties of Bilayer Fullerene Onions, [Fullerenes, Nanotubes and Carbon Nanostructures 10 \(2017\) 607](#) [IF/MedIF(2016)= 1.35/1.86= 0.726] (6 pages).
20. A. SEPEHRI, **R. PINČÁK** (30%), A. PRADHAN, and A. BEESHAM, Emergence of anti-F(R)-gravity in Type-IV Bouncing cosmology as due to M0-brane, [Gravitation and Cosmology 23 issue 3 \(2017\) 1077-1091](#) [IF/MedIF(2016)= 0.734/2.01=0.365] (29 pages).
21. K. KANJAMAPORNKUL, **R. PINČÁK** (30%), S. CHUNITHIPAISAN, and E. BARTOŠ, Support spinor machine, [Digital Signal Processing 70 \(2017\) 59](#) [IF/MedIF(2016)= 2.337/1.664= 1.404] (14 pages).
22. S. CAPOZZIELLO, **R. PINČÁK** (40%), and K. KANJAMAPORNKUL, [Anomaly on Superspace of Time Series Data, Zeitschrift für Naturforschung A vol. 72, issue 12 \(2017\) 1077-1091](#) [IF/MedIF(2016)= 1.432/1.28=1.119] (15 pages).
23. S. CAPOZZIELLO, E. N. SARIDAKIS, K. BAMBA, A. SEPEHRI, F. RAHAMAN, A. F. ALI, **R. PINČÁK** (15%), and A. PRADHAN, Cosmic space and Pauli exclusion principle in a system of M0-branes, [International Journal of Geometric Methods in Modern Physics vol. 14, issue 06 \(2017\) 1750095](#) [IF/MedIF(2016)= 1.068/1.349= 0.792] (32 pages).

24. J. SMOTLACHA and **R. PINČÁK** (50%), Boundary conditions and Green function approach of the spin-orbit interaction in the graphitic nanocone, [International Journal of Geometric Methods in Modern Physics vol. 14, issue 09 \(2017\) 1750116](#) [IF/MedIF(2016)= 1.068/1.349= 0.792] (20 pages).
25. A. SEPEHRI, A. PRADHAN, **R. PINČÁK** (20%), F. RAHAMAN, and A. BEESHAM, Birth of the GUP and its effect on the entropy of the universe in Lie-N-algebra, [International Journal of Geometric Methods in Modern Physics vol. 14, issue 09 \(2017\) 1750130](#) [IF/MedIF(2016)= 1.068/1.349= 0.792] (15 pages).
26. A. SEPEHRI, **R. PINČÁK** (33.33%), G. J. OLMO, M-theory, graphene-branes and superconducting wormholes, [International Journal of Geometric Methods in Modern Physics vol. 14, issue 11 \(2017\) 1750167](#) [IF/MedIF(2016)= 1.068/1.349= 0.792] (32 pages).
27. S. CAPOZZIELLO, V. De FALCO, and **R. PINČÁK** (33.33%), Torsion in Bianchi IX cosmology, [International Journal of Geometric Methods in Modern Physics vol.14, issue 12 \(2017\) 1750186](#) [IF/MedIF(2016)= 1.068/1.349= 0.792] (15 pages).
28. E. BARTOŠ and **R. PINČÁK**, Study of Prediction Models for Time Series, [Acta Physica Slovaca 67 \(2017\) 1](#) [IF/MedIF(2016)= 1.455/1.28=1.137] (83 pages).
29. YU. FEDOROV and **M. STEHLIK** (50%), The Modulation of Galactic Cosmic Ray Intensity in the Outer Heliosphere, [Solar Physics 292 \(2017\) 119](#) [IF/MedIF(2016)= 2.682/2.01= 1.334].
